

How To Use the Web Version of Foxit PDF Editor

Your license for editor allows you access on 1 device and cloud access to all the editing tools using your web browser. To access the PDF editor on a different device, go to your account on your web browser.

If you require a PDF Editor for your role and only have a PDF Reader. Have your manager approve the request to upgrade your license. **Submit an email** to support@belf.com for a Foxit PDF Editor license.

How To Use the Web Version of Foxit Editor

1. **Open** your web browser on your desktop computer
2. **Go to** <https://www.foxit.com/pdf-editor/>
3. **Login** with your Cinch email address and the password you set up, when you created your account.
 - This gives you access to the cloud version of PDF Editor.
 - If you DO NOT have a Foxit account, you can't use this tool online.

4. On this landing page, there is an option to "Buy Now" and "Try it for free".
 - **Ignore** those options, scroll down to the next section "Edit PDFs Using Our Free Online PDF Editor - Fast, Easy, and Secure!".

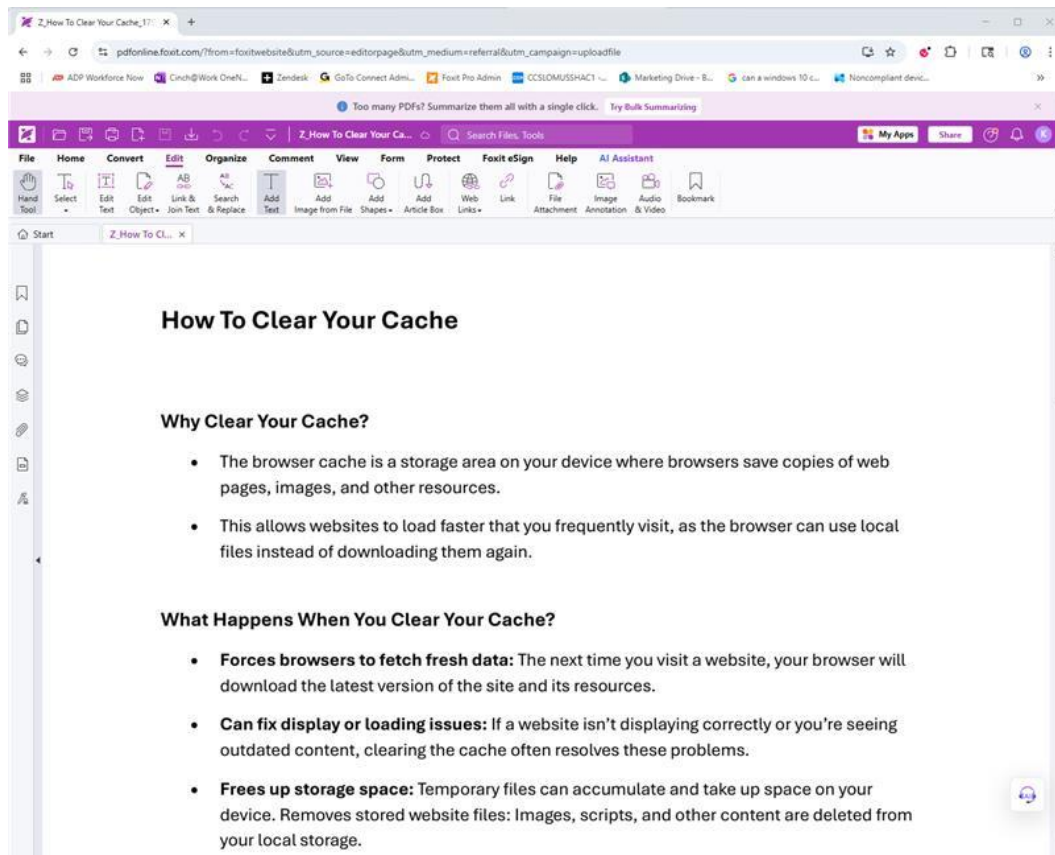

How To Use the Web Version of Foxit PDF Editor

- This section is in a blue box with the "Upload" button.

- Next, **Upload** the document you'd like to edit here, and the tools to edit the PDF will show up in a new window with the same interface as the desktop application.

- Once this window opens, you can start to edit your PDF.
